1.1 Buyer

Official name:	Ministerie van Defensie
Legal type of the buyer:	Body governed by public law, controlled by a central government authority

The buyer is a contracting entity

Activity of the contracting authority:	Defence

2. Procedure

2.1 Procedure

Title:	Mobile Jerrycan Filling Stations (MJFS)
Description:	The Dutch Army intends to replace one obsolete Mobile Jerry#can Filling Station (MJFS) and to expand the capability with three additional, identical units, resulting in a total of four MJFS systems for the Dutch land forces. An MJFS is a 20#ft ISO container (8 ft 6 in high) that automatically empties, cleans and refuels jerry#cans with diesel or kerosene. The system includes its own generator, is operated by a crew of two, and can process more than 120 jerry#cans per hour. It is transportable and deployable by a truck equipped with a Container Handling Unit (CHU). The acquisition and the accompanying service contract are proposed to be executed through a single#source procurement in line with the Defence and Security Procurement Act. Since 2023 the Dutch combat brigades have been integrated into a German division. This configuration demands that training, operations and logistics be fully synchronised. Using identical equipment creates a single joint stock# and distribution chain, standardises maintenance and repair procedures, and imposes uniform documentation, thereby markedly lowering administrative burdens and costs. A common asset set also enables faster, safer joint exercises and allows direct equipment exchange in NATO or EU missions, improving response times and overall deployability. Therefore, the need to boost interoperability and achieve greater standardisation between the Dutch and German divisions-driven by shared technical requirements—has led to the decision to adopt a single#source procurement for the MJFS. By selecting the same MJFS model as the German division, supply processes, maintenance, documentation and training for both armed forces are streamlined, significantly reducing the logistical footprint and associated administrative effort.
Procedure identifier:	404e7773-77fc-42e8-b7b8-268cfbd404da
Internal identifier:	dee1710d-e76f-41d7-ba50-737db3932509
Type of procedure:	Negotiated without prior call for competition

2.1.1 Purpose

Main nature of the contract :	Supplies
Main classification (cpv):	34221000 Special-purpose mobile containers

2.1.2 Place of performance

Country:	Netherlands

Anywhere in the given country

Additional information:	See documentation

2.1.3 Value

Estimated value	0 Euro

Rijksoverheid

excluding VAT:

2.1.4 General information

Legal basis:

Directive 2009/81/EC

5. Lot

5.1 Lot technical ID: LOT-0000

6.1 Result lot Identifier: LOT-0000

At least one winner was chosen.

6.1.2 Information about winners

Winner:	
Official name:	GPV International A/S
Tender:	
Tender identifier:	GPV International A/S
Identifier of lot or group of lots:	LOT-0000
Value of the tender:	3 500 000 Euro
The tender was ranked:	no
The tender is a variant:	no

Rijksoverheid

Subcontracting :	No

Contract information:

Identifier of the contract:	4503483170
Title:	Mobile Jerrycan Filling Stations (MJFS)
Date on which the winner was chosen:	04/12/2025
Date of the conclusion of the contract:	04/12/2025

6.1.4 Statistical information

Summary of the review requests the buyer received:

Number of complainants:	0

Received tenders or requests to participate:

Type of received submissions:	Tenders from tenderers registered in other European Economic Area countries than the country of the buyer
Number of tenders or requests to participate received:	1
