Legal type of the competent authority:	Entity with special or exclusive rights

The buyer is a contracting entity

Activity of the contracting entity:	Electricity-related activities

2. Procedure

2.1 Procedure

Title:	Secure Software Supply-Chain and Dependency Management
Description:	Enexis is exploring solutions to improve how software dependencies and related software artifacts are sourced, governed and monitored throughout the application lifecycle. The objective is to give development teams efficient access to trusted components while strengthening visibility, integrity, policy control and risk monitoring. We are interested in solutions, or combinations of solutions, that may include dependency and artifact management, software composition analysis and integration with existing development processes. Important: Restricted access due to critical infrastructure requirements! (See appendix A for access requirements) To be determined.
