**Annex E - Reference Project(s) form
Suitability Requirements Passenger
Transportation Installations**

Date
8 February 2017

Author
M. Gielens

Reference Project(s) for Suitability Requirement A

The Candidate must fill in this form and submit it as part of the Application, for the purposes of the Reference Project for Suitability Requirement A: Experience in production, delivery and installation of Passenger Transportation Installations for complex, time-driven, large-scale projects.

In addition to the form below the Candidate may add a substantiation of no more than 3 single-sided A4 sheets (printed on one side only) with a maximum of 500 words, including any supporting images, illustrations, diagrams etc.

SNBV reserves the right to request further explanation from the contact person of the client named in this form.

A maximum of one Reference Project may be submitted.

Reference for Suitability Requirement A: Experience in production, delivery and installation of Passenger Transportation Installations for complex, time-driven, large-scale projects	
Name and location of Reference Project	
Name and contact details of contracting authority for the Reference Project	
Candidate's name (Independent or Syndicate Member)	
Start date of Appointment	
Completion date of Appointment	
Total lead time (from order date to completion of installation)	
Number of Passenger Transportation Installations	
Type of Passenger Transportation Installations (including lifts, escalators and moving walks at minimum) and number installed per type	
Testimonials from the primary contracting authorities (Testimonial to be submitted upon verification of the ESPD)	Yes/No*
If the Reference Project was carried out as a collaboration: - the names of the other participants in the collaboration; - percentage share of every participant in the collaboration.	
Brief description of the Reference Project. The requirements set for this Reference Project (section 5.1.2. Selection Guidelines) must be demonstrated.	

Criteria for Suitability Requirement A	
The Candidate must demonstrate that it has experience with the production, delivery and installation of miscellaneous Passenger Transportation Installations including lifts, escalators and moving walks at minimum, for complex, time-driven, large-scale projects.	Yes/No*
The Reference Project qualifies as a 'complex project' as stated at point 7 at the general requirements at page 22 in the Selection Guidelines.	Yes/No*
The Reference Project was completed within the given time frame.	Yes/No*
The Reference Project was completed within the set budget.	Yes/No*
The Reference Project was completed without compromising the continuous live (24/7/365) operational environment surrounding the construction site.	Yes/No*
The Reference Project was completed ten (10) years or less prior to the final Application deadline.	Yes/No*
The Reference Project only contains activities that have been actually performed by the Candidate itself (not by a third party or a subcontractor of the Candidate, etc.). If and when a Candidate or Syndicate Member relies on a Third Party that has performed these activities; this is independently verifiable, and in any such case Candidate (or Syndicate Member) complies with the requirements as set out in paragraph 2.4 of these Selection Guidelines relating to engaging third parties.	Yes/No*

Reference Project(s) for Suitability Requirement B

The Candidate must fill in this form and submit it as part of the Application, for the purposes of the Reference Project for Suitability Requirement B: Experience in working under a main contractor.

In addition to the form below the Candidate may add a substantiation of no more than 3 single-sided A4 sheets (printed on one side only) with a maximum of 500 words, including any supporting images, illustrations, diagrams etc.

SNBV reserves the right to request further explanation from the contact person of the client named in this form.

A maximum of one Reference Project may be submitted.

Reference for Suitability Requirement B: Experience in working under a main contractor	
Name and location of Reference Project	
Name and contact details of contracting authority for the Reference Project	
Candidate's name (Independent or Syndicate Member)	
Start date of Appointment	
Completion date of Appointment	
Testimonials from the primary contracting authorities (Testimonial to be submitted upon verification of the ESPD)	Yes/No*
If the Reference Project was carried out as a collaboration: - the names of the other participants in the collaboration; - percentage share of every participant in the collaboration.	
Brief description of the Reference Project. The requirements set for this Reference Project (section 5.1.2. Selection Guidelines) must be demonstrated.	

Criteria for Suitability Requirement B	
The Candidate must demonstrate that it has experience with regular coordination and communication with a main contractor regarding the production, delivery and installation of Passenger Transportation Installations.	Yes/No*
The Reference Project qualifies as a 'complex project' as stated at point 7 at the general requirements at page 22 in the Selection Guidelines.	Yes/No*
The Reference Project includes the installation of, at minimum, 50 Passenger Transportation Installations.	Yes/No* Number: ...
The Reference Project required regular coordination and communication with a main contractor in order to install all Passenger Transportation Installations according to specifications in a timely manner.	Yes/No*
The Reference Project demonstrates that the Candidate possesses enough boldness to timely address problems, challenges and issues it foresees with a main contractor. This includes the suggestion and discussion of potential solutions with a main contractor or, if needed, even the end client.	Yes/No*
The Reference Project was completed ten (10) years or less prior to the final Application deadline.	Yes/No*
The Reference Project only contains activities that have been actually performed by the Candidate itself (not by a third party or a subcontractor of the Candidate, etc.). If and when a Candidate or Syndicate Member relies on a Third Party that has performed these activities; this is independently verifiable, and in any such case Candidate (or Syndicate Member) complies with the requirements as set out in paragraph 2.4 of these Selection Guidelines relating to engaging third parties.	Yes/No*

Reference Project(s) for Suitability Requirement C

The Candidate must fill in this form and submit it as part of the Application, for the purposes of the Reference Project for Suitability Requirement C: Experience in delivering high quality transportation solutions enabling smooth passenger flows and efficient transportation of goods.

In addition to the form below the Candidate may add a substantiation of no more than 3 single-sided A4 sheets (printed on one side only) with a maximum of 500 words, including any supporting images, illustrations, diagrams etc.

SNBV reserves the right to request further explanation from the contact person of the client named in this form.

A maximum of one Reference Project may be submitted.

Reference for Suitability Requirement C: Experience in delivering high quality transportation solutions enabling smooth passenger flows and efficient transportation of goods

Name and location of Reference Project	
Name and contact details of contracting authority for the Reference Project	
Candidate's name (Independent or Syndicate Member)	
Start date of Appointment	
Completion date of Appointment	
Testimonials from the primary contracting authorities (Testimonial to be submitted upon verification of the ESPD)	Yes/No*
If the Reference Project was carried out as a collaboration: - the names of the other participants in the collaboration; - percentage share of every participant in the collaboration.	
Brief description of the Reference Project. The requirements set for this Reference Project (section 5.1.2. Selection Guidelines) must be demonstrated.	

Criteria for Suitability Requirement C	
The Candidate must demonstrate that it can truly engage in its client's challenges and that it, by showing leadership in combination with a collaborative approach to work, knows how to produce, deliver and install high quality transportation solutions that enable smooth passenger flows and efficient transportation of goods.	Yes/No*
The Reference Project qualifies as a 'complex project' as stated at point 7 at the general requirements at page 22 in the Selection Guidelines.	Yes/No*
The Reference Project includes the installation of, at minimum, 50 Passenger Transportation Installations, aimed at realising solutions that best facilitate smooth passenger flows and efficient transportation of goods.	Yes/No* Number: ...
The Reference Project demonstrates how Candidate truly engaged in its client's challenges and pro-actively challenged its design and hereby contributed to finding these high quality, preferably innovative (using proven technology), solutions based on its knowledge and experience.	Yes/No*

Reference Project(s) for Suitability Requirement D

The Candidate must fill in this form and submit it as part of the Application, for the purposes of the Reference Project for Suitability Requirement D: Experience in enabling the end client to achieve its sustainability ambition.

In addition to the form below the Candidate may add a substantiation of no more than 3 single-sided A4 sheets (printed on one side only) with a maximum of 500 words, including any supporting images, illustrations, diagrams etc.

SNBV reserves the right to request further explanation from the contact person of the client named in this form.

A maximum of one Reference Project may be submitted.

Reference for Suitability Requirement D: Experience in enabling the end client to achieve its sustainability ambition	
Name and location of Reference Project	
Name and contact details of contracting authority for the Reference Project	
Candidate's name (Independent or Syndicate Member)	
Start date of Appointment	
Completion date of Appointment	
Testimonials from the primary contracting authorities (Testimonial to be submitted upon verification of the ESPD)	Yes/No*
If the Reference Project was carried out as a collaboration: - the names of the other participants in the collaboration; - percentage share of every participant in the collaboration.	
Brief description of the Reference Project. The requirements set for this Reference Project (section 5.1.2. Selection Guidelines) must be demonstrated.	

Criteria for Suitability Requirement D	
The Candidate must demonstrate that it has experience in producing, delivering and installing Passenger Transportation Installations that enable the end client to achieve its sustainability ambition.	Yes/No*
The Reference Project qualifies as a 'complex project' as stated at point 7 at the general requirements at page 22 in the Selection Guidelines.	Yes/No*
The Reference Project the Candidate provided Passenger Transportation Installations to must have been issued with at least a LEED SILVER sustainability certification or equivalent.	Yes/No*
