## SECTION II: OBJECT

### II.1) SCOPE OF THE PROCUREMENT

#### II.1.1) Title

Implementation of Electronic Flight Strips and upgrade of the Tower System

Reference number: PRJ-2022

#### II.1.2) CPV code(s)

Main code:

34962000 - Uitrusting voor luchtverkeersleiding

Supplementary code:

-

#### II.1.3) Type of contract

Supplies

#### II.1.4) Short description

PRJ2022 - Replacement and upgrade of the ATC-NL Tower System including Electronic Flight Strips

The purpose of this tender procedure – with reference number PRJ-2022 – is to award a single contract to a supplier or a consortium of suppliers that can provide the upgrade of the current Tower System with Electronic Flight Strips functionality and could replace the entire current Tower System in use at Amsterdam Airport Schiphol. Furthermore, the supplier or a consortium of suppliers should be able to provide maintenance Support and implementation services during the operational and economic lifetime of the new Tower System.

The tender procedure is a restricted tender procedure. During the selection phase, ATC-NL wishes to select a maximum of 5 Candidates who have proven themselves as capable in realising similar contracts successfully. The selected Candidates will then be eligible to receive an Invitation to Tender.

The Invitation to Tender will include an award criterion base...

#### II.1.6) Information about lots

This contract is divided into lots: no

## **II.1.7) Total value of the procurement (excluding VAT)**

Value: 28 000 000,00

Currency: EUR

## **II.2) DESCRIPTION**

### **II.2.1) Title**

-

Lot No: -

### **II.2.2) Additional CPV code(s)**

-

### **II.2.3) Place of performance**

NUTS code:

NL NEDERLAND

Main site or place of performance:

Schiphol

### **II.2.4) Description of the procurement:**

(nature and quantity of works, supplies or services or indication of needs and requirements)

The scope of the tender will be a contract to design, build, maintain and further develop the new Tower System in co-operation with ATC-NL. The contract will be in the form of a framework agreement and is referred to as the Master Agreement. The Master Agreement describes the Process in conformity with which the new Tower System will be rolled-out and maintained. The Process will describe multiple Projects. Each Project is performed under a specific Further Agreement. Each Further Agreement will add functionality to the Tower System as well as the associated Maintenance Services for that added functionality.

The first Project will be included in the tender procedure. The purpose of the first Project is to expeditiously realize the EFS System functionality at Amsterdam Airport Schiphol. This first Project requires the Contractor to provide an interface to ATC-NL's current Tower System.

The anticipated duration of the Master Agreement is 15 years. The Master Agreement will pro...
