Main code:

48462000 - Software voor wiskundige of voorspellingsdoeleinden

Supplementary code:

-

II.1.3) Type of contract

Services

II.1.4) Short description

As the Infrastructure Manager (IM) of the railroad in the Netherlands (ProRail) and the largest Train Operating Company (TOC) the NS (Netherlands Railways) consider to start a tender for the acquisition of a Driver ADvisory System (DAS, both trackside and trainborne system) in the future, we would like to gain more information from the market by conducting this market consultation. The gained information might be used as input for the formal tender process which we expect to execute after this market consultation.

A Driver Advisory System supports the train drivers goal of more accurately executing the timetable. This requires that up-to-date information is sent to the train driver indicating its position in relation to its current timetable, enabling the train driver to adjust his or her driving style to better adhere to the timetable

This will help the programs goal of generating more capacity on the busy Dutch railroad track. Besides this main goal this could also lead to s...
