

## Q&amp;A

Project: Market Consultation - Driver Advisory System  
 Date: June 27th 2017  
 Version: 1.0

No	Document	Paragraph	Question	Answer
1	TN142763 Market consultation v1.0	Question 2	Should the project references be submitted in the Excelsheet or can they be added as an attachment?	They can be added as an attachment. Please refer to the attachments in the Excel sheet.
2	TN142763 Market consultation v1.0	Question 2	Is there a maximum number of project references?	No, but we advise you to carefully consider which references are useful for us, in order to reduce time and costs invested in this market consultation.
3	TN142763 Market consultation v1.0		Is there a maximum number of pages for answering the questions?	No, but we advise you to carefully consider the length of your answers, it needs to be manageable for ProRail. In the new version of the market consultation document a restriction of the length of the answers is given to some questions (see chapter 4).
4	TN142763 Market consultation v1.0		Is it possible to answer the questions in Dutch?	Yes, answers can be given in English or Dutch.
5	n.a.		What is the Operating System version of the tablets supplied to train drivers?	The OS of the tablet is Android 6 (the current application also runs on Android 7). The OS of the ETD (Electronic Timetable Display) is Linux (custom distribution).
