Call for information for Automated Waste Collection Amsterdam:

AI 2017-0278
Ondergronds Afval Transportsysteem Sluisbuurt

As a part of the market consultation the city of Amsterdam would like to receive information / suggestions from the market about

- (example)contracts
- (example) tender procedures
- requirements for placing AWCS inside (high rise) buildings

The purpose is to use the suggestions and information as input for making the contract and tender procedure.

The given information can be used for public use, can be used/published in the Tender or in other publications or projects.
