1. Rectification of the published information notice 18-07-2018

Last Wednesday (18th July 2018) Schiphol published the Information Notice on TenderNed. Unfortunately we found out there are some errors in our responses contained within the information notice. We are investigating these errors and will publish a revised document as soon as possible, at the very least, on or before the 25th of July 2018.

At this moment we would like to let you know that the answers to the questions about the use of Acrylate at the airport material was incorrect. The correct answer is that: the illuminated signage fascia material is to be a class B2 material such as Vivak or PET-G.

2. Dates for the interviews

Further to the above we would like to advise you that the interviews that are detailed in this tender are scheduled for the 8th and 9th August 2018. Therefore Schiphol would like to request that you keep these days available in your agenda for an interview.
