"DEVELOPMENT OF A COMPREHENSIVE MASTER PLAN FOR THE CALZADA DE LA REPÚBLICA PEDESTRIAN AND CYCLE LANE AND RECOVERY OF ITS PUBLIC SPACES"

Naam van de behoeftesteller

Rijksdienst voor Ondernemend Nederland

The Netherlands Enterprise Agency (in Dutch: Rijksdienst voor Ondernemend Nederland, RVO) supports private and public organisations with funding, international business partners, knowledge, and regulations.

More information about RVO can be found on: www.rvo.nl and <http://english.rvo.nl/>.

Achtergrond

Extent and duration

The project will run from 15 October 2019 until January 2020.

Purpose of the project

In January 2017, Mexico became a priority country for the Dutch International Water Ambition, which seeks to strengthen bilateral cooperation in water-related issues on a multiannual basis in the years to come.

One of the Dutch programmes that support its implementation is Partners voor Water (PvW). The cooperation between Delta and Mexico falls within the framework of this Programme. The PvW is implemented through the joint efforts of the Mexican Ministry of Foreign Affairs (MoFa), Ministry of Economic Affairs and Ministry of Infrastructure and Water Supply (IenW). The programme is being developed by the Netherlands Enterprise Agency (RVO). The Delta team comprises representatives of IenW, RVO and the Netherlands Water Partnership (NWP), in close collaboration with the Embassy of the Kingdom of the Netherlands (EKN).

PvW has supported two fact-finding missions in the State of Oaxaca into integrated water resources management (IWRM) which laid the base for this terms of reference (ToR) for the **DEVELOPMENT OF A COMPREHENSIVE MASTER PLAN FOR THE CALZADA DE LA REPÚBLICA PEDESTRIAN AND CYCLE LANE AND RECOVERY OF ITS PUBLIC SPACES**. In April 2018, PvW funded a workshop on IWRM in the State of Oaxaca, at which 4 main projects were identified. The key project selected first concerns the development of a boulevard combining sustainable mobility and IWRM over 1.5 km on the Calzada de la República.

The outline for this project was thoroughly elaborated in a follow-up mission in November 2018, also funded by PvW. This mission produced the 'Framework Document for Cooperation between SINFRA and RVO for the development of the "Calzada de la República Pedestrian and Cycle Lane" project. Both missions were carried out by Beccan Dávila Urbanismo in direct cooperation with SINFRA and both mission reports have been incorporated in the mission ToR for the abovementioned development of the comprehensive masterplan.

Additionally, on July 15th 2019 an Specific Memorandum of Understanding was signed between RVO and SINFRA under the name "**COLLABORATION AND RESOURCE CONTRIBUTION COORDINATION AGREEMENT**" (Convenio de Colaboración y Coordinación de Aportación de Recursos), which reflects and materialize the coordination between both entities in order to carry out the **DEVELOPMENT OF A COMPREHENSIVE MASTER PLAN FOR THE CALZADA DE LA REPÚBLICA PEDESTRIAN AND CYCLE LANE AND RECOVERY OF ITS PUBLIC SPACES**.

For this the masterplan zooms in on the designing the boulevard bearing in mind its extensive green areas, an Integrated Water Resources Management approach and the feasibility assessment for its construction. This requires hydrological, urban mobility and spatial studies. The ToR's primary focus is to deliver this masterplan at the direct request of SINFRA. This means that the agent carrying out the assignment will directly cooperate with SINFRA. The latter will also organize the implementation of the deliverable.

Purpose of the notification

The purpose of the notice is to determine whether there are suppliers able to contribute to the project: "Development of a comprehensive master plan for the Calzada de la República pedestrian and cycle lane and recovery of its public spaces". For this assignment Dutch expertise in urban analysis urban strategies and spatial interventions on any spatial scale, hydrology and urban resilience, landscape architecture, green areas and the design of public spaces with citizen participation methods and sustainable mobility is required and sought.

Specific requirements regarding the agent to carry out the assignment under the ToR:

- Has a clear understanding of cooperation with the local authorities in Oaxaca and especially SINFRA.
- Speaks and writes Spanish fluently.
- Has international and national experience in comprehensive, holistic projects which take account of climate adaptation (especially in water-related issues), urban space, citizen participation and sustainable mobility.
- Has extensive experience of comprehensive methodologies in analysis, design and conceptual processes.
- Has experience of participatory processes and methodologies in the concept design of territorial and urban interventions.
- Also independent persons – ZZP'ers – are eligible to submit proposals.

Omvang van de opdracht

Het maximaal beschikbare budget bedraagt € 103.305,- exclusief btw

Vraagstelling

Indien u beschikt over aantoonbare ervaring met vergelijkbare projecten, kunt u uw interesse bij ons kenbaar maken.

Procedure

Geïnteresseerden kunnen zich per e-mail aanmelden bij de volgende contactpersonen bij de Rijksdienst voor Ondernemend Nederland (RVO):

eveline.kouwenhoven@rvo.nl en behoeftesteller michel.dezwart@rvo.nl

Voeg bij uw antwoord per e-mail uw bedrijfsgegevens, adres toe.

Resultaten van de marktraadpleging

Als resultaat van de marktraadpleging kan de organisatie besluiten om een vervolgtraject te starten.

Geïnteresseerden kunnen in dit traject worden uitgenodigd voor het doen van een offerte. Indien er meer dan 5 gegadigden op de marktraadpleging reageren, zal voorafgaande aan de offerteaanvraag een leveranciersselectie plaatsvinden op basis van een willekeurige selectie.

Bij een eventueel vervolgtraject zal geen onderscheid worden gemaakt tussen partijen die al dan niet hebben deelgenomen aan de marktraadpleging.

Ik zie graag uw reactie uiterlijk 27 september 2019 tegemoet.

Met vriendelijke groet,

Eveline Mars
