

[illegible]

The diagram illustrates a 1000BASE-SX optical network architecture. It features a central 1000BASE-SX block connected to various components. The components include:

- 1000BASE-SX**: The main network interface.
- 1000BASE-SX**: A secondary network interface.
- 1000BASE-SX**: A third network interface.
- 1000BASE-SX**: A fourth network interface.
- 1000BASE-SX**: A fifth network interface.
- 1000BASE-SX**: A sixth network interface.
- 1000BASE-SX**: A seventh network interface.
- 1000BASE-SX**: An eighth network interface.
- 1000BASE-SX**: A ninth network interface.
- 1000BASE-SX**: A tenth network interface.

The diagram also shows a legend for various components:

- 1000BASE-SX**: A square symbol.
- 1000BASE-SX**: A circle symbol.
- 1000BASE-SX**: A triangle symbol.
- 1000BASE-SX**: A diamond symbol.
- 1000BASE-SX**: A hexagon symbol.
- 1000BASE-SX**: A star symbol.

The diagram is labeled "1000BASE-SX" at the top and bottom.
