Address of the buyer profile:

<https://platform.negometrix.com/PublishedTenders.aspx?tenderid=142415>

I.2) JOINT PROCUREMENT

-

I.6) MAIN ACTIVITY

- Urban railway, tramway, trolleybus or bus services

SECTION II: OBJECT

II.1) SCOPE OF THE PROCUREMENT

II.1.1) Title

Validators for trams and busses GVB

Reference number: 2019-80

II.1.2) CPV code(s)

Main code:

42961100 - Toegangscontrolesysteem

Supplementary code:

-

II.1.3) Type of contract

Supplies

II.1.4) Short description

GVB intends to replace its current public transport chipcard Validators in trams and busses with new Validators, with more functionality for GVB travelers than the current Validators. The new validators must, in addition to the public transport chip card, also support Barcode and EMV.

II.1.6) Information about lots

This contract is divided into lots: no

II.2) DESCRIPTION

II.2.1) Title

-

Lot No: -

II.2.2) Additional CPV code(s)

Main code:

34000000 - Vervoersmaterieel en bijbehorende producten

Supplementary code:

-

Main code:

48000000 - Software en informatiesystemen

Supplementary code:

-

II.2.3) Place of performance

NUTS code:

NL NEDERLAND

Main site or place of performance:

Amsterdam

II.2.4) Description of the procurement:

(nature and quantity of works, supplies or services or indication of needs and requirements)

The scope of the contract consists of:

- A. Delivery (purchase of hardware, integration of software and installation) of new validators in trams and buses, as well as on the GVB test platform and the test locations in the workshops. This concerns approximately 4000 Validators (for appr. 500 vehicles);
- B. Connecting the validators on the GIVA network in the vehicles. A detailed description of what GIVA is and what is to be expected can be found in the schedule of requirements;
- C. Removing and disposing of the validators presently located in the trams and busses and on the test platform at the head office of GVB and the test locations in the workshops;
- D. Initial delivery of spare validators (for stock GVB). This concerns approximately 200 validators;
- E. Providing relevant training and/or instructions to GVB employees and if necessary third parties contracted by GVB;
- F. Providing all relevant design, technical and maintenance documentation;
- G. Organising and implementing the service management and maintenance (SMM) of (the hardware and software for) the validators, including delivery of SMM based on the (Concept-)SLA;
- H. Delivery of service, management and maintenance (SMM) for an initial period of 10 years after final acceptance.

Deadline for delivery:

Partially due to agreements between GVB and its client the VervoersRegio Amsterdam (VRA), by 15.12.2021 it must be possible to travel with a barcode in all public transport in Amsterdam that GVB offers on the basis of the concession granted to it. This means that final acceptance of the scope elements A-G has to be completed no later than 15.12.2021. Because this date is of the greatest importance for GVB, the date of 15.12.2021 is a knockout and the lead time will be part of the qualitative award criteria and will be subject to a high penalty in the agreement in case the date is not met.

II.2.5) Award criteria

Quality criterion

Name: Design

Weighting: 50

Quality criterion

Name: MTBF and Operational stock

Weighting: 25

Quality criterion

Name: Plan of approach

Weighting: 25

Price

Weighting: 40

II.2.11) Information about options

Options: yes

Description of options:

The following options will be part of the contract:

- 1) Extending the agreement with the same terms and conditions after the expiry of the initial contract period for a maximum of 5 years (could be periods of 1 year);
- 2) Subsequent delivery and installation of additional validators for replacement purposes in the existing fleet for new trams and/or buses GVB will purchase for the duration of the agreement. GVB prefers to have as few different types of validators as possible for its travellers. This makes it easier for travellers to use the validators. For this reason, GVB will include an option in the agreement that, for the duration of the agreement, additional quantities of validators may be ordered (and installed) if GVB requires them. These are in principle the same validators, but, if improvements have been realised with which GVB can agree and if the validator still complies with the requirements in the SoR with these changes, then this may also include a logical successor or improved version of the validator that was initially supplied. This delivery can either be directly to GVB or to the manufacturer of a new series of trams or buses for GVB;
- 3) Support to the manufacturer of new series of trams and buses for GVB, during development, installation and testing of the validators in those new trams or buses;
- 4) Further improvement of the delivered validators with regards to reliability and availability or by adding new functionalities or necessary functional modifications to the hardware or software;
- 5) Prolonging the service, management and maintenance (SMM) of the validators after the initial and extended duration of the agreement, for as long as the validators are in use by GVB.

II.2.13) Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds: no

II.2.14) Additional information:

See tendering guideline

SECTION IV: PROCEDURE

IV.1) DESCRIPTION

IV.1.1) Type of procedure

Open procedure

IV.1.3) Information about a framework agreement or a dynamic purchasing system

-

IV.1.6) Information about electronic auction

-

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2) ADMINISTRATIVE INFORMATION

IV.2.1) Previous publication concerning this procedure

Notice number in the OJ S: 2020/S 037-088496

IV.2.8) Information about termination of dynamic purchasing system

-

IV.2.9) Information about termination of call for competition in the form of a periodic indicative notice

-

SECTION V: AWARD OF CONTRACT

Contract No: 1

Lot No: -

Title: Validators for trams and busses GVB

A contract/lot is awarded: yes

V.2) AWARD OF CONTRACT

V.2.1) Date of conclusion of the contract:

27/10/2020
