Market consultation PoR - Impressed current cathodic protection system

Reference number: PU.3006-210308

II.1.2) CPV code(s)

Main code:

45300000 - Installatiewerkzaamheden in de bouw

Supplementary code:

-

II.1.3) Type of contract

Works

II.1.4) Short description

Port of Rotterdam (PoR) wants to explore transparently and in consultation with the market which parties are interested in participating in a tender, which solutions are available or are being developed in order to be able to protect the steel combined retaining wall against corrosion by means of an impressed current cathodic protection (ICCP) system.

The purpose of this market consultation is to obtain the market's image and vision of the required system at an early stage in the run-up to a possible tender. The consultation is aimed at:

- Collecting information about interested market parties;
- Collecting information about available solutions and innovations;
- Access to market parties interested in the supply of existing products or services and innovations/developments for the benefit of the work;
- Access to market parties interested in the existing implementation methods and innovations/developments of the work;
- Enhancing the conditions to ensure a successful project.
