E-mail:

VFJ.Spijkerman@mindef.nl

Fax:

-

Internet address(es):

General address of the contracting authority/entity:

<http://www.defensie.nl>

Address of the buyer profile:

<https://platform.negometrix.com/PublishedTenders.aspx?tenderid=172500>

Further information can be obtained from

The above mentioned contact point(s)

I.2) TYPE OF THE CONTRACTING AUTHORITY

Ministry or any other national or federal authority, including their regional or local sub-divisions

I.3) MAIN ACTIVITY

- Defence

I.4) CONTRACT AWARD ON BEHALF OF OTHER CONTRACTING AUTHORITIES

The contracting authority is purchasing on behalf of other contracting authorities: no

II: OBJECT OF THE CONTRACT

II.1) TITLE ATTRIBUTED TO THE CONTRACT BY THE CONTRACTING AUTHORITY/ENTITY

Market consultation Tactical Data Link (TDL) Toolset

II.2) TYPE OF CONTRACT AND LOCATION OF WORKS, PLACE OF DELIVERY OR OF PERFORMANCE

Type: Supplies

Main site or location of works, place of delivery or of performance:

-

NUTS code:

NL

II.3) INFORMATION ON FRAMEWORK AGREEMENT

The notice involves the establishment of a framework agreement: no

II.4) SHORT DESCRIPTION OF NATURE AND SCOPE OF WORKS OR NATURE AND QUANTITY OR VALUE OF SUPPLIES OR SERVICES

The Defense Material Organisation (DMO), which is part of the Dutch Ministry of Defense (NL MoD) would like to have more information about the Tactical Data Link (TDL) Toolset. A market consultation will be held with regard to this need, in order to determine whether the market can meet certain requirements; which added value can be provided with the delivery; and which commercial parties are interested in the assignment or part of the assignment.

Project Goal

Realizing a TDL-interoperability Toolset (TDL-IT), a software system where the TDL implementations of Dutch platforms that use Tactical Datalinks (such as Link 16 and Link 22) can be documented for future monitoring of their interoperability and decisions can be made about the acquisition and adjustments of the TDL implementation in current and new platforms. The implementation of a platform's TDL determines what information can be exchanged, how the platform handles this information and how it is presented to the operator. This also determines which interaction with the operator is possible. For operations and exercises, the implementation can be compared with foreign implementations in order to display 'gaps' in the interoperability before this leads to interoperability problems during the operation / exercise.

Project scope

1. The purchase of the necessary software and the installation of this software on NLSWAN and/or NATOSWAN;
2. A license agreement to guarantee the availability and maintenance of the software until 2037.

This tender provides all the relevant information concerning the market consultation. If you have any questions, please submit them in the "Question & Answer" module.
