

This architectural site plan illustrates the layout of the LDS 63 building and its immediate environment. The building is a large, multi-winged structure with a central core containing a staircase and various service areas. The plan is oriented with North at the top. Surrounding the building are several parking lots, each containing numerous parking spaces. A road runs along the bottom of the site, with a sidewalk and landscaping. The plan also shows the building's footprint, including walls, windows, and doors, as well as the surrounding landscape, including trees and a parking lot.
