Ref.nr. **Onderwerp:**
2 Language for tender process

Vraag:

Dear Ladies and Gentlemen,

Funkwerk is a supplier of Passenger Information Systems for Rail and Urban Organisations. We have projects in Germany (e.g. DB in Munich), Switzerland but also nationwide projects like in Austria with Austrian Railways.

We saw that the language for submission is Dutch.
However we want to ask whether there is the possibility during the tender process (e.g. asking questions or certain clarification) that we have a communication in English.

Looking forward getting your feedback and reply.

Best Regards
Kurt Kerschdorfer

Antwoord:

Dear Mr. Kerschdorfer,

Contracting authority wants during this tender process to communicate in the Dutch language.

Kindly regards,

Louis Pothof
