II.2.4) Description of the procurement:

(nature and quantity of works, supplies or services or indication of needs and requirements)

Services are required from late summer 2021 for an initial one year term with possible annual extensions up to a total term of 3 years, contracted as Call Off Contracts with Bidders who are awarded Framework Agreements as result of this tender exercise.

GÉANT anticipates that IP Transit services will be provided by a range of ISPs, to a max of 5 per location (as stated in the tender documents), which will each offer multiple high speed inter-connections across Europe for exchanging the traffic with the NRENs. Awards will be determined on basis of highest scores achieved on a per pop basis.

Some of the inter-connections will be direct with the NRENs with the highest traffic levels and the remainder of the NRENs will be connected to the ISPs via aggregation points on the GÉANT pan European network.

The tender documents set out the technical, quality, commercial and contractual requirements associated with the GWS Framework competition exercise.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents
