Steam Turbine outage 2022 Rotterdam Capelle

• **Note of Information #4**

Dear Tenderers,

Hereby we would like to make one announcement for the tender Steam Turbine outage 2022 Rotterdam Capelle.

- 1) See list of questions and answers in the table following on the next page.

Yours sincerely,
Tender Team

Ref. nr.	Question	Answer
1	The "European Single Procurement Document" was not a part in the tender documents as mentioned under Paragraph 4.1 of the request. We therefore ask for this document.	The "European Single Procurement Document" is an interactive form and can be found on TenderNed. Please be aware this form needs to be signed legally after filling it in.
2	Can Uniper free issue spares or provide upfront documentation (drawings) and sample parts for reverse engineering? What is the view in case of providing spares (repair or reverse engineer) based on findings?	Uniper has no possibility to free issue spares and does not have available documentation/ Drawings or sample parts to allow reverse engineering. Should the Tenderer consider that repair or reverse engineering of parts is possible following findings, the requirements in the Tender Documentation are the same and need to be followed as the Tenderer still need to provide: • List of spares for this project • List of possible spares for potential findings • Lead times/ Delivery times/ Capability etc • Prices • All other relevant information as mentioned in the Tender Documentation meant to describe and argument the delivery of scope is possible in optimal conditions.
