An aerial photograph of a residential neighborhood with six distinct zones highlighted in different colors and labeled with numbers 1 through 6. Zone 1 is a large red area in the upper right. Zone 2 is an orange area to the left of Zone 1. Zone 3 is a yellow area below Zone 2. Zone 4 is a light blue area in the lower right. Zone 5 is a dark blue area to the right of Zone 4. Zone 6 is a dark blue area in the lower left. The map is covered with numerous house numbers and street names, including 'S. 221st St' and 'S. 222nd St'. The zones are irregularly shaped and overlap with the surrounding residential structures.

This aerial map illustrates a residential development divided into five distinct zones, each color-coded and numbered. The zones are defined by green boundary lines. Zone 1 (red) is a large, irregularly shaped area in the upper right. Zone 2 (orange) is a smaller, roughly rectangular area adjacent to Zone 1. Zone 3 (yellow) is a large, irregularly shaped area in the lower right. Zone 4 (green) is a long, narrow, diagonal strip running from the upper left towards the center. Zone 5 (blue) is a long, narrow, diagonal strip running from the upper left towards the center, parallel to Zone 4. The map shows individual lots with house numbers and names. A 20m scale bar is located in the bottom left corner.
