IV.1.3) Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

Framework agreement with a single operator

In the case of framework agreements, provide justification for any duration exceeding 8 years:

It is important that the framework agreements cover the entire duration of the project and that the materials do not have to be contracted again at the end of the project. Because the realization of the WarmtelinQ project may take ten to twelve years, a contract term for the framework agreement of eight years is too short and a new tender could mean a break in standardisation.
