II.1.4) Short description

Royal Schiphol Group's mission for 2050 is 'Connecting Your World'. We are faced with a major challenge to constantly balance three major important qualities: Quality of Network, Quality of Life, and Quality of Service.

To realize our Vision 2050 and perform such a balancing act, Royal Schiphol Group concluded we needed to centralize the tougher innovation missions in what is now known as Royal Schiphol Group's Innovation Hub. In addition, Royal Schiphol Group aims to accelerate our transformation by rapidly scaling innovations in our operational environment, which is supported across our business units by Royal Schiphol Group's Scaling & Commercializing team.

In order to achieve our goals, to accelerate our transformation and to provide Business value for our airport and the whole aviation industry, we are looking for a long-term partner who will commit to our challenges and goals in order to co-create a better tomorrow.

II.2.3) Place of performance

NUTS code:

NL NEDERLAND

Main site or place of performance:

Schiphol, The Netherlands

II.2.4) Description of the procurement:

(nature and quantity of works, supplies or services or indication of needs and requirements)

Royal Schiphol Group wants to accelerate (explorative) innovation and scale impact to realize Vision 2050; from exploration to business value, leveraging the leading role in the sector by facilitating successful collaboration.

To achieve this, we are looking for a long-term partner that:

- co-owns our innovation challenges,
- can support us (using different working methods) throughout the entire innovation journey from exploration to business value,
- can add the right capabilities at any point either by doing so themselves or via third parties in the ecosystem.

For to be determined projects, the future partner works along side our way-of-working: from ideation to commercialization and scale-up (including implementation and sourcing, if applicable). Joint decisions can be made based on a shared business case (benefits/costs, risk and investment).

Given the nature of the Engagement (accelerating explorative innovation), pinpointing an exact volume is virtually impossible. Based on past innovations and the need for (disruptive) innovations to shape the future of RSG and the sector, we expect this Agreement to have a maximum value of € 30 million euros (excl. VAT and other possible taxes) falling under EU directive 2014/24/EU. For works/services that fall outside the scope of EU directive 2014/24/EU, RSG reserves the right to exceed the beforementioned value. By co-owning, investing and accelerating relevant innovation, Contractor has a large impact on the actual business opportunities that may arise from this partnership and therefore its value.

It is important to note that RSG is not looking for a traditional buyer-supplier relationship (such as a service provider or vendor). Even though it may at times occur that services are requested on for instance a per hour basis, the foreseen partnership involves an investment of both parties with the aim to co-own the innovation. The partner will participate in the governance, development, financing, scaling (implementation and sourcing) and commercializing of the innovation based on a principle of shared cost/benefits and open-book calculations by default.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: 30 000 000,00 Currency: EUR
