

Memorandum of Information Market Consultation 'Systems analysis and strategic plan on circularity of packaging in Kenya'

Date: 1 March 2022

In this Memorandum of Information, the department inviting tenders provides answers to the questions asked and remarks posted in the context of the above-mentioned Market Consultation. This Memorandum of Information forms an integral part of the Market Consultation (with reference 202202067).

Question	Question	Answer
1.	How does the consultant's work compares to the work of Metabolic?	The consultant will work within the framework of a system approach. However, for the assignment the focus is on knowledge of local agro-food and flower systems and possible bottlenecks for circular packaging initiatives/business. There will be guidance on the aspects of the system approach by the external consultant Metabolic on the input for the system mapping and structure of some workshops.
2.	The assignment is mainly mapping and designing of interventions that bear circularity and/or agro-circularity packaging in Kenya?	The focus of this assignment is the mapping of the stakeholders around agro-circularity of packaging and the underlying causes of the lack of sustainable packaging in Kenya itself. Next we ask a critical look at existing initiatives touching upon this theme before looking at the design of new interventions.
3.	Is it possible to provide a small team instead of one CV?	Yes, it is indeed an option to provide a small team.
4.	In case the market consultation is successful, what would be the timing of the publication of the tender?	After closure of the market consultation at 14 March, RVO may decide to start a procurement procedure as quick as possible. The foreseen period of the assignment itself is May-August 2022.
