

Memorandum of Information			
Clarification questions on Tender "H2 Supply, Ref. 2020 FPL/INK170 date 17-12-2020"			
No.	Section nr. / subject	Question	Answer
1.	Submission of the tender	How can we submit a definition of boundaries of offered services such as; 'Installation' or 'on-site tie in/commissioning etc.?	Information about the location can be found in the appendix "Plant one utilities". In this appendix information is provided about the utilities in this location. The delivered system needs to be an autonomous system installed at the site. All the connections (outside battery limit) will be available and the supplier is requested to have the right connection available. For example, the water pipe will be available close to space where the system will be installed. The supplier is requested to use a 1 meter pipe and to provide the right connectors to connect the pipe available at the site to the pipe of the system. Same approach for the rest of the inlet and outlet piping.
2.	Submission of the tender	Can we request extra time for submission? Due to the submission of pricing being a fixed and binding offer we would like to verify offers with sub-suppliers accordingly.	The deadline for submission is extended. The new and final deadline is 7th of January 2021 at 12.00 hours.
3.	Evaluation of Eligibility Requirements	Can representative of Tenderer participate without a GVA (Gedragsverklaring Aanbesteden)?	This subject is described in article 5.1. in the tender document.
4.	Evaluation of Eligibility Requirements	8.56; The delivery period SHALL be stated in the proposal, mentioning a maximum of 18 months from the moment the purchase order is received by the supplier. Reference is made to 'the proposal'. What is 'the proposal' ? Do we need to upload a full quotation separately or is confirmation of all requirements sufficient next to the pricing sheet (appendix A04)?	The proposal is the complete package of information which is uploaded in the system. Delivery within 18 months is a hard requirement.
5.	Tender document	Remark	Information regarding to the use of Tenders can be found here: https://www.tenderned.nl/cms/english/tenderned-foreign-businesses
