II.1.4) Short description

The objective of this tender is to conclude an agreement with a tenderer who is able to carry out the geophysical investigations required to obtain the soil information at part of the Wind Farm Zone IJmuiden Ver (IJV). The tender will consist of an extension of investigation area in the North of IJmuiden Ver WFZ and will consist of approximately 250 km².

The intention is to carry out the field work in Q2-Q3 of 2022. The objective of the geophysical soil investigation is to improve the bathymetrical, morphological and geological understanding and to identify objects in the designated wind farm sites. A second objective is to obtain geophysical information on these locations, which is suitable for the preparation of geotechnical investigations and for the design and installation requirements of offshore wind farms.
