II.2.11) Information about options

Options: yes

Description of options:

Two optional contract extensions of 4 years each.

It is important that the framework agreement can cover the full duration of the project, all sections of WarmtelinQ and that materials do not have to be re-contracted at the end of the project. Since the realization of the WarmtelinQ project may span over 12 years, a contract duration for the framework agreement of up to 8 years is too short because retendering could mean a break in standardization.
