Toelichting:

Ref.nr. 2
Onderwerp: Financial standing

Vraag:

The tender foresees various options to prove one's ability to protect the Tendering authority's interests, i.e. through professional liability insurance. However, the company's accounts and financial assessment are only due in January 2023. Therefore, I wondered about the value of professional liability on its own and whether that would suffice as proof of financial standing?

Antwoord:

Proof of any insurance for professional liability will be sufficient. We do not expect a certain value.
