II.1.4) Short description

TenneT TSO B.V. is appointed by the Dutch government as offshore grid operator, and is responsible for engineering, procurement, construction, installation and operation of connections between offshore wind farms (through a converter platform) and the onshore network. For this, survey works are required.

This tender aims to conclude multiple framework agreements for geophysical and geotechnical surveys for platform locations (work package 1), and routes (work package 2), to be performed during the development and construction of connections.

Surveys for platform locations for TenneT TSO GmbH. during the development/ construction of connections may also fall under this framework agreement. Also, if extended after the first 3 years, surveys for operational connections may also fall under this framework agreement. Further agreements will be awarded by means of mini-competitions, for which qualified consultants holding a framework agreement will be invited.
