II.4) SHORT DESCRIPTION OF NATURE AND SCOPE OF WORKS OR NATURE AND QUANTITY OR VALUE OF SUPPLIES OR SERVICES

The Royal Netherlands Navy (RNLN) operates twelve Landing Craft Vehicle Personnel (LCVP). The LCVP is used to transport infantry troops, vehicles and goods from the Landing Platform Docks (LPD's) to the shore.

The Defence Materiel Organisation (DMO) of the Netherlands Ministry of Defence (MODNL) has commenced the process for the replacement of the LCVP.

In April 2020 an exploratory early market consultation was published to get a better understanding of the supply market of amphibious assets for the replacement of the LCVP. Now that a clear outline of the scope of the assignment has been established, DMO would like to ask your participation once more in a more specific market consultation, considering the now detailed requirements from RLNL. This document has to be considered as an additional Request for Information (RFI), which in turn is part of the market consultation for the replacement of the LCVP.
