

## Appendix 8.1 Special conditions

### **(Re)insurance**

The contract concerns a reinsurance, to which the General Terms and Conditions (VGA/WAG2013) and the other conditions stated in the contract apply. The subscriber acts as reinsurer and as such is a risk carrier for the insured amount in excess of the retention. Because of the construction being reinsurance, no insurance tax is due on the premium of this insurance.

### **GVB buses that drive through the car wash**

Contrary to the provisions of article 12.1.7 of the General Terms and Conditions VGA / WAG 2013 in case of a loss to policyholder GVB, the risk carrier does not invoke the "exclusion valid driving license" insofar as this concerns the driving of buses through the car wash, or limited shunting of buses on its own premises. For these cleaners, an internal driving licence from the GVB is sufficient. The sistercar exclusion will remain in force.

### **Terrorism coverage clause sheet**

See separate pdf-file.

### **To follow clause**

Announcements regarding changes to covered perils, premiums, conditions, increases in insured sum and limits will be made to all (re)insurers.

All other announcements regarding the insurance will be made to the leading (re)insurer who is deemed to act on behalf of all (re)insurers.

In the event of damage, all insurers will fully submit to the claims settlement approved by the above insurer, subject to sans-prejudice, leniency and ex-gratia payments, which requires the approval of each (re)insurer separately.
