

Legend
This drawing is to be read in conjunction with all relevant architect and engineer drawings and specifications. All elevations and dimensions have to be verified prior to beginning of construction work. Possible discrepancies in elevation and dimensions of the proposed project to the existing site shall be reported to construction management and landscape architect prior to the beginning of construction work. The location and elevation of sub-surface service lines are indicative only, exact location and elevation shall be verified on site. All measurements are in millimeters unless otherwise stated. Do not scale from this drawing.
