

Aanbesteding: LiDAR systemen t.b.v. windenergiegebieden Noordzee
Aanbestedende Dienst: Rijkswaterstaat Centrale Informatievoorziening
Referentie: 31173321

Toelichting:

Ref.nr. **Onderwerp:**
1 Window for Questions

Vraag:

We are very keen to submit a bid, however we are struggling to fully review all of the documentation before the window for questions closes on the 17th June. Unfortunately we have various members of staff on leave until the end of June which makes it difficult to submit questions even before the second window closes on the 28th June.

As submission is not due until 12th September, please can I ask for an extension to the window when questions can be asked in order to allow more time to properly review the full tender documentation? I would be very grateful if this can be accommodated.

Antwoord:

In reply to your request we will push back the due date for submittal of questions to August. Please refer to Tendered for the details.

Als antwoord op uw verzoek verzetten wij de datum voor het stellen van vragen naar augustus. Raadpleeg s.v.p. Tendered voor de details.
