(nature and quantity of works, supplies or services or indication of needs and requirements)

TenneT is responsible for the majority of the Dutch and part of the German offshore grid, and for the design, fabrication, installation and operation of the grid connections which will transport offshore generated power to shore. TenneT has developed 2 platform concepts up to the level of basic design; a 700 MW AC offshore substation and a 2GW DC offshore converter station. For the 2GW stations, TenneT plans to enter into cooperation agreements with key market partners for up to 8 years. The offshore platforms need to be certified in accordance with applicable technical standards.

With this Qualification System, TenneT aims to qualify candidates capable of acting as Certifying Authority for these offshore platforms, and review the design and execution of the work of the stations contractor to ensure compliance with the DNV standard DNV-ST-0145, and certify the platform according DNV-SE-00073/DNV-SE-00190 for Dutch offshore stations, and BSH 7005 for German offshore stations.
