4. Planning
5. Questions (suppliers)
6. Close

Opening

- Who's who?;
- General goals and rules in this meeting.

Who's who

Speakers on behalf of Rijkswaterstaat:

- Project manager
- Procurement officer
- Contract manager
- Asset owners

General goals and rules

- To inform suppliers;
- To address first questions (if possible);
- Feel free to ask questions during presentations;
- You can ask questions by using the chat option or by 'raising a hand' in TEAMS;
- Please turn your mic's off and camera's on.

Goal and Rules Information Meeting

- Goal: To clarify the procurement documents.
- The questions and answers serve to clarify the procurement documents and not to discuss the requirements and criteria.
- No rights can be derived from the oral answers to questions during this meeting.
- Questions are answered in writing via Tendered.
 - Questions and answers are made anonymous.
 - All questions and answers are part of the procurement documents.
- This presentation will be published on Tendered.

Procurement Documents

- Descriptive Document
- Concept Contract (ARBIT)
- Demand Requirements Specification (DRS)
- Process Requirements Specification (PRS)

NB: All communication with respect to this tender procedure goes via TenderNed (option "Berichten").

Award Criteria: Quality

- Product quality
- Supply and Support
- Product Development
- Sustainability
 - For each of the criteria the Objective and Scoring Elements are specified
 - For each quality criterium Bidder shall submit a description of 3 pages A4 at most, with well legible font.
 - Bidder elaborates the following items per scoring element:
 - Measures: which measures will be taken by Bidder.
 - Result: what result will the measure(s) lead to and to what extent does the result contribute to the objective of the relevant quality criterium.
 - Substantiation: why will Bidder realise it this way (theoretical and/or technical explanation), whereby Bidder substantiates that the measures will work, the result will be achieved and will contribute to the objective.

Award Criteria: Price

- The format Financial Offer is obligatory and must be followed by Bidder.
- RWS requires COTS products. Bidder must add his standard European price list for supply of COTS products to the offer.
- The prices of components must be in accordance with bidder's standard European price list.
- If Bidder makes use of a discount rate for a component in his offer, he shall use this percentage as a minimum in any future supply.

Documents to be included upon Tender

Number	Description	Action Bidder
1	Statement of approval	Fill in format 'Statement of approval' (Appendix C) and duly sign in a qualified electronic way and add to the Tender in TenderNed.
2	European Single Procurement Document(s)	Fill in format 'European Single Procurement Document' (Appendix A) and add to the Tender in TenderNed.
3	Extract from the professional or trade register	Add to the Tender in TenderNed.
4	Reference statement	Fill in format 'Reference Statement' (Appendix D) and add to the Tender in TenderNed.
5	Documentary evidence Quality Management	Add to the Tender in TenderNed.
6	Elaboration of the quality criteria	Elaborate the quality criteria and add to the Tender in TenderNed.
7	Financial Offer	Fill in format 'Financial Offer' (Appendix E) and add to the Tender in TenderNed.
8	Standard European price list for supply of COTS products	Add to the Tender in TenderNed.

Purpose of the assignment

- Contract goal: Have a functioning RWIS during lifetime @ RWS, that meets clients needs over the years.
- Contract philosophy: provides the best possible quality within the following applicable values and behaviour
 1. moral unity: a reliable partner towards society, together with Client
 2. integer/honest: Contractor provides safe & demonstrable work, in accordance with its certified quality management system and asks an honest price for honest labour
 3. equal: Contractor works together in the chain, on the basis of equality and complementarity,
 4. standard of care: Contractor thinks, works, acts in the common interest, by seeking dialogue and anticipating the future
 5. supportive: Contractor has a hands-on mentality and will seek discussion within the chain concerning risks, information needs and dilemmas.

Goals for RWIS

- Nationwide uniform measurement network (Rijkswaterstaat and provinces)
- New parameters and measurements compared to the current system
- Solid and robust measuring stations that can keep up with the times
- High-quality measurements as the basis for future data sources such as in-car data
- RWIS measurements as reference for other data sources
