Date of publication: September 19, 2022

In this Memorandum of Information, the Tendering Authority provides answers to the questions asked and remarks posted in the context of the above-mentioned Tender Document. This Memorandum of Information forms an integral part of the Tender Document.

Together with this Memorandum of Information corrected versions of Annex 4 will be published.

When submitting a tender please use the following updated versions of the Annexes. The previous versions have become defunct ("vervallen" in Dutch).

- Annex 4: NW_3D-UHRS_20220914_RVO_GP_Annex 4_Cycle_Times_and_Prices_Rates_F03

No.	Subject	Question	Answer
23.	Errors in annex 4	Can you explain how the values in Annex 4 Cycle Times and Prices Rates for respectively 3d / 4d and 3e / 4e are calculated towards the Offshore Completion Date?	In Annex 4, items 3d and 4d are used to calculate the offshore completion of the priority lines. These values are linked to item 5b where the tenderer fills in a number of days for delivery of offshore processed survey data for priority lines (incl. WoW) (5b). Item 3e and 4e is the total amount of square km of the investigation area for Nederwiek zuid, including the priority lines. The tenderer needs to fill in the duration per square km to complete the full offshore survey. Item 3e and 4e are used to calculate the offshore completion data of the survey for Nederwiek zuid. Note: the description of item 3e and 4e contains an error this should be: "(quantity includes the priority lines stated in item 3d/4d)"
24.	Errors in annex 4	It seems there is an error in Annex 4 Cycle Times and Prices Rates for line 4d and 4j, can you check the formula and correct the error ?	This is correct. Annex 4 version F.02 Cycle Times and Prices Rates line 4d and 4j contains an error in the formula. This is corrected in the updated version Annex 4 version F.03. Please use the updated version (F.03) for tender submission.
