Services

II.1.4) Short description

The Netherlands Enterprise Agency (RVO.nl) is an executive department of the Ministry of Economic Affairs. RVO.nl stands for implementing policy for enterprising Netherlands in the field of innovation, sustainability, agriculture and international cooperation. In this way, RVO.nl contributes to a Netherlands that is economically stronger and has a sustainable society. Within RVO.nl, the EU Core Processes Directorate (KPEU) is recognized as a European Paying Agency. This means that it is authorized to implement European regulations and to pay out related European subsidies. This assignment entails the execution of services concerning the monitoring area based subsidies of the CAP. Furthermore NEA desires support in executing and developing opportunities to further improve the quality and efficiency of controls which result from EU based legislation.

Following the official invitation to tender, we expect to hold an information meeting via MS Teams at Wednesday the 21st of December 2022

II.1.5) Estimated total value

Value excluding VAT: 6 820 000,00 Currency: EUR

II.1.6) Information about lots

This contract is divided into lots: no

II.2) DESCRIPTION

II.2.1) Title

-

Lot No: -

II.2.2) Additional CPV code(s)

Main code:

72000000 - IT-diensten: adviezen, softwareontwikkeling, internet en ondersteuning

Supplementary code:

-

Main code:

48000000 - Software en informatiesystemen

Supplementary code:

-

Main code:

38221000 - Geografische informatiesystemen (GIS of dergelijke)

Supplementary code:

-

II.2.3) Place of performance

NUTS code:

NL NEDERLAND

Main site or place of performance:

The actual processing, development and hosting can be done somewhere in Europe.

However during the contract period annually a number of physical meetings take place in the Netherlands.

II.2.4) Description of the procurement:

(nature and quantity of works, supplies or services or indication of needs and requirements)

Starting 2023 each year all European paying agencies have to monitor area based schemes funded by the Common Agricultural Policy budget. This includes crop classification, detection of mowing events and other agricultural activities. This particular job requires storing and processing huge amounts of data. NEA is looking for a technical partner to help setup an AMS cloud environment and running and creating markers to monitor agricultural activities.

The assignment entails the following components:

- Hosting: setting up and maintaining several cloud environments which will be used to host and process all data in relation to the Area Monitoring System;

- Production: all activities related to the monitoring of area based EU support schemes in a production based setting (e.g. crop classification, mowing detection, detection of ploughing);
- Development: activities related to the development of new markers, improving existing markers and the creation of new functionalities relevant in the context of monitoring area based schemes and object detection;
- Data: activities related e.g. to the procurement and processing of (commercial) satellite data. This also includes making the data available in line with the standards and specifications provided by NEA.
- Archive: activities related to archiving of production data according to the conditions that are set by the European Commission and Dutch authorities.
- Analysis: setting up an online analysis platform allowing NEA to access all AMS data and to perform analysis tasks.

II.2.14) Additional information:

-

II.3) ESTIMATED DATE OF PUBLICATION OF CONTRACT NOTICE

15/12/2022

SECTION IV: PROCEDURE

IV.1) DESCRIPTION

IV.1.8) Information about the Government Procurement Agreement (GPA)
