### **II.4) SHORT DESCRIPTION OF NATURE AND SCOPE OF WORKS OR NATURE AND QUANTITY OR VALUE OF SUPPLIES OR SERVICES**

This RFI is part of a market survey to determine a suitable procurement strategy. It is not the intention to provide a detailed proposal at this moment. In this RFI, the NLD MOD informs the market about our current challenges and invites and encourages the market to provide us with information and solutions that would help the NLD MOD address these challenges. The NLD MOD wants to gather as much information as possible concerning possibilities and restrictions in the vendor market and the available solutions.

With this RFI, the Dutch MOD wants to gain information on different systems it should consider as a replacement for the current Jamcar. In the document the vision and preferred approach of EW training in the form of Mobile Radar Threat Emission is explained. Potential suppliers are requested to reflect on the way their solution fits in the desired training approach. The second goal of this RFI is to inform budgeting choices. For this purpose, the NLD MOD requires commercial and pricing information for a realistic budget indication. For more information on the use of Negometrix, please visit the Negometrix site.
