The lowest fictitious bid price wins the tender. Besides prices, qualitative criteria apply where you can get a fictitious (imaginary) discount: organic label.

A 'soilless system' is a soilless (groundless) continuous root package consisting of various native perennial species, free of root weeds, delivered on a roll of approximately 120 cm wide or in tiles of approximately (120 or) 60 x 60 cm. No plastic should be present in the product. The systems consist of three colors/variants/mixes and two heights as described in the quotation form tab 'systems'.

We recognize that it is not possible to give fixed prices for items that will not be delivered until later. You therefore offer prices as they are now - reference date 1 May 2023 - until June 2024. For delivery 2025, we will set the final sales prices based on an index to be jointly determined.
