(nature and quantity of works, supplies or services or indication of needs and requirements)

The purpose of this RFI is to give organizations, who can meet the required specifications, the opportunity to express interest in the supply of this support software;

Wageningen University needs a contract for the delivery of 'Support software to design, prepare and execute Laboratory Experiments'. Prior to the tender, we would like to have an overview of interested / experienced market parties.

WUR is looking for standard software with proven use in Higher Education that supports WUR students in all phases of a laboratory experiment: Pre-lab, In-lab and Post-lab. This software must allow students to design and prepare the laboratory experiment, support them in its implementation and processing of the data. The prior aim is that the system must prevent cognitive overload for students in the laboratory, giving them the opportunity to give attention to other cognitive processes such as critical and creative thinking.
