

Aanbesteding: Consultants who can organise sector events using either Future Search methodology or a comparable alternative

Aanbestedende Dienst: Ministerie van Economische Zaken en Klimaat, Rijksdienst voor Ondernemend Nederland (RVO)

Referentie: 202303068

Toelichting:

Ref.nr. 8 **Onderwerp:** award criteria

Vraag:

5.2.1. says (at the end on page 19) "provide your response for every lot you subscribe to. 5.2.2. (on page 20) says 'if you submit an offer for the two lots....you only have to submit oen document for the two lots". As the only difference between lot 1 and lot 2 is language, the answers to both lots - 5.2.1. as well as 5.2.2., would be the same. Can we submit one document for 5.2.1 and also one document for 5.2.2?

Antwoord:

This question will be answered in the Second Memorandum of Information.

Percelen: P1 Lot 1 Two senior consultants who can organise sector events in the English language using either the Future Search methodology or a comparable alternative
P2 Lot 2 Two senior consultants who can organise sector events in the French language using either the Future Search methodology or a comparable alternative

Ref.nr. 9 **Onderwerp:** assessment and award

Vraag:

Is it possible for our organisation to submit a tender for both lots and get awarded for lot 1 and rejected for lot 2? in other words are they assessed completely separately?

Antwoord:

This question will be answered in the Second Memorandum of Information.

Onderwerp:
group link

Vraag:

In follow-up of question 3 asked before: If the partnership ('maatschap') has multiple consultants that have the required competences and references, can these consultants - through their individual "zzp-schap" form several (e.g. 3) consortia and submit several (e.g.) independent tenders? - rather than submitting 1 tender as partnership. Section 7.3.18 says "...their mutual relationship has not influenced behaviour.....". This condition will not be met in de partnership, just as it will not be met in other networks of professionals wherein we collaborate or communicate, as there is contact about this tender document. So what exactly is possible and permitted and what is not?

Antwoord:

This question will be answered in the Second Memorandum of Information.

Percelen: P1 Lot 1 Two senior consultants who can organise sector events in the English language using either the Future Search methodology or a comparable alternative
P2 Lot 2 Two senior consultants who can organise sector events in the French language using either the Future Search methodology or a comparable alternative

Onderwerp:
consultants outside of EU

Vraag:

Are consultants outside of the EU allowed to be part of a consortium as a subcontractor? (and if so, is registration in TenderNed required and also the ESPD? are there other requirements)

Antwoord:

This question will be answered in the Second Memorandum of Information.

Percelen:

Onderwerp:

Format of event

Vraag:

Do you prefer to conduct the sector events fully onsite? Or are you also consider a hybrid format, e.g. one or two days onsite complemented with virtual meetings?

Antwoord:

This question will be answered in the Second Memorandum of Information.
