Legal type of the buyer: Central government authority

Activity of the contracting authority: Economic affairs

2. Procedure

2.1 Procedure

Title: Quality Assessment and Red Parcel management in the GSA and AMS for 2024-2027

Description: The Netherlands Enterprise Agency (NEA) serves as an EU-delegated body responsible for the implementation of EU policies in the Netherlands. This mandates NEA to effectively and efficiently oversee compliance with EU regulations, particularly in relation to subsidies under the Common Agricultural Policy (CAP). Therefore, NEA is looking for a Contractor to facilitate the annual obligatory Quality Assessments (QAs). These QAs pertain to the Area Monitoring System (AMS) and the Geospatial Aid Application (GSA), including rigorous sample controls integral to the Programmatic Enforcement Cycle for interventions such as the BISS, the Eco scheme, the AEEM, and various conditionalities, all integral parts of the CAP. Furthermore, the Contractor will be responsible for evaluating agricultural activities on parcels that yield results from the AMS, colloquially referred to as 'red parcels'. Both the QA and the processing of 'red parcels' involve a manual inspection relying on optical imagery. The Tendering Authority has estimated a total Contract value (including the optional extension years) exclusive of indexation of EUR 3,000,000 (exclusive of VAT). This estimated value should be understood as strictly an indication from which no rights can be derived. Because certain volumes are uncertain such as the number of red-parcels to be detected, or potential changes in EU legislation concerning the QAs. The estimated value is based on the costs of similar activities in the past years and the changed rules concerning the QA. This Tender Document was created using up-to-date knowledge and insights valid at the time of its formulation.

Procedure identifier: b4b5d0bc-3bd5-4597-bc02-396ca28f80b4

Internal identifier: 202308058

Type of procedure: Open

The procedure is accelerated: No

2.1.1 Purpose

Nature of the contract: Services

Main classification(cpv): 72330000Content or data standardization and classification services

Additional classification(cpv): 38221000Geographic information systems (GIS or equivalent)

Additional classification(cpv): 48000000Software package and information systems

Additional classification(cpv): 72310000Data-processing services

2.1.2 Place of performance

Country: Netherlands

Anywhere in the given country

Additional information: The actual processing, detecting and hosting can be done anywhere in the EU. However during the contract period annually a number of physical meetings take place in the Netherlands.

2.1.3 Value

Estimated value excluding VAT: 3 000 000EUR

2.1.4 General information

Legal basis:

Directive 2014/24/EU

5. Lot

5.1 Lot:LOT-0000

Title: Quality Assessment and Red Parcel management in the GSA and AMS for 2024-2027

Description: In order to be able to execute the QA AMS, GSA and process the 'Red Parcels', the contractor will need to deliver the following products: 1)Transferring/handling of geospatial data such as Sentinel, Planet Fusion; 2)Make available a web-based viewer: the availability of a cloud in which all data can be accessed and production can run; 3) Computer Assisted Photo Interpretation (CAPI) environment; 4)Activities related to archiving of production data according to the conditions that are set by the European Commission. The scope of the Quality Assessment and the handling of 'red parcels' is to assess the quality of the information declared by the farmer as well as the quality of the automatic generated AMS-results. If a discrepancy is found between what the farmer declared or what the AMS yielded as a result and the information collected using remote sensing data, the application of the farmer will be modified accordingly and possible financial corrections can incur. All findings will be communicated to the scheme applicants. The communication will be facilitated through the RVO.nl platform hosted and provided by NEA. € 3,000,000,

Internal identifier: 1

5.1.1 Purpose

Nature of the contract: Services

Main classification(cpv): 72330000Content or data standardization and classification services

Options:

Description of the options: There is an option for extension of the contract period.

5.1.2 Place of performance

Country: Netherlands

Anywhere in the given country

Additional information: The actual processing, detecting and hosting can be done anywhere in the EU. However during the contract period annually a number of physical meetings take place in the Netherlands.

5.1.3 Estimated duration

Start date: 2024-03-28+01:00

End date: 2025-12-31+01:00

5.1.4 Renewal

Maximum renewals: 2

The buyer reserves the right for additional purchases from the contractor, as described here :

The Contracting Authority intends to conclude a Contract for a period of one year, nine months and three days, including a unilateral option for the Contracting Authority to extend the contract two (2) times by one (1) year.

5.1.5 Value

Estimated value excluding VAT: 3 000 000EUR

5.1.6 General information

Procurement Project fully or partially financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA)

5.1.10 Award criteria

Criterion:

Type: Quality

Name: Award criteria relating to quality

Description: The award criteria relating to quality are divided into three award criteria, which each have subcriteria. The total of the award criteria are weighted for 70% in the score for the 'lowest weighted price per point'. The quality criteria are (in total max 1000 points): 1. Flexibility and adaptability in deadlines (max 350 points) 2. Implementation plan (max 425 points) 3. Additional functionalities to the web-based viewer (max 225 points) Please see the Tender document for the details to the award criteria.

Weight (points, exact): 70

Criterion:

Type: Price

Name: Award criteria relating to prices/rates (exclusive of VAT)

Description: The price can be divided into fixed annual costs and variable costs. The price for the variable costs pertains to each parcel that needs to be assessed. Using fictional numbers for the variable costs, the fictional total price per year will be determined.

Weight
(points, exact): 30

5.1.15 Techniques

Framework agreement:

No framework agreement

Information about the dynamic purchasing system

No dynamic purchase system

Electronic auction:
