5. Lot

5.1 Lot:LOT-0001

Title: Public Infrastructure

Description: Groups water, coastal & marine, logistics, renewable energy, other utilities, and agri-food / agriculture. The inclusion of agri-food / agriculture comes from the fact that typical projects funded by DRIVE in this sub-sector would relate to logistics facilities (e. g. cold storage of processing centre) or irrigation systems, therefore the expectation is that the same set of engineering expertise (with potentially complementary expertise on a case-by-case basis) as for other infrastructure sub-sectors will be relevant; agriculture today represents a marginal share of the portfolio, although the ambition of the Contracting Authority remains to expand in this area. The central element for eligibility of a sub-sector revolves around the link of the underlying Project with the priorities of Invest International, where a Project should show, and impact related to SDG 8 and SDG 13 . See Selection Document. The 5 Candidates with the highest score will be invited for phase 2, the award phase.
