1. Buyer

1.1 Buyer

Official name: N.V. Nederlandse Gasunie

Legal type of the buyer: Public undertaking

Activity of the contracting entity: Production, transport or distribution of gas or heat

2. Procedure

2.1 Procedure

Title: HyStock transformers

Description: Gasunie is working on the HyStock hydrogen storage project near Zuidwending in the Netherlands. Gasunie is planning to develop here the first large-scale hydrogen storage site in northwest Europe. The Zuidwending site is situated on top of a salt dome that is ideally suited to underground hydrogen storage. In this way energy can be stored. At the end of 2026, the first cavern and an above-ground installation will be put into operation. It is expected that four hydrogen caverns will be needed by 2030 to meet the demand. For a good preparation of an upcoming tender for Transformers and for the technical preparation of the work site, we have a couple of questions. We deliberately have restricted the number of questions and made them easy to answer to minimize the effort for suppliers Max 7 transformers foreseen

2.1.1 Purpose

Nature of the contract: Supplies

Main classification 31170000Transformers (cpv):

2.1.2 Place of performance

Country subdivision (NUTS): Oost-Groningen(NL111)

Country: Netherlands

2.1.4 General information

Legal basis:

Directive 2014/25/EU

3. Part

3.1 Part:PAR-0000
