Berm	206
Voetpad	227
Berm (Weg)	239 (50)
Parkeervak	501
Rijbaan	556
Trottoir	199
Totaal	1428

Dwarsprofiel B

The diagram illustrates the cross-section of a road during a maintenance project. It shows a 4400mm wide work area (Werkgebied) on the left, followed by a 60mm gap, a 50mm obstacle (Obstakelwaaier), a 135mm gap, a 25mm gap, and a 350mm riding lane (Rijbaan) on the right. A car and a cyclist are shown in the riding lane. A legend indicates that the pink area represents the work area and the red and white striped area represents the traffic regulation (Verkeersregelaar).
