Organisation signing the contract:	Ministerie van Economische Zaken en Klimaat, Rijksdienst voor Ondernemend Nederland (RVO)

6. Results

Value of all contracts awarded in this notice:	58 000 Euro
Direct award:	
Justification for direct award:	Contracts with estimated value below the procurement thresholds
Other justification:	This notice is only used to advance the intended choice of a negotiated procedure without prior publication to enable interested parties to express objections. In September 2022 a further proposal request with the title “Communication, media and promotion for Water as Leverage Cartagena – Construyendo con el Agua” within the Framework Agreement “Communication advise and implementation of communication tools” and reference 202207122, has been sent out. The invited parties were not interested in participating in this further proposal request. A new request for proposal to three external parties was sent out and resulted in a contract being awarded to La Cifra Impar, the current supplier. The contract period ends on 28 February 2024. Now it has become clear that the budget and the timeframe for the remaining activities are not sufficient and that unforeseen activities are required to complete this project correctly. An additional € 58,000 excl. Dutch VAT incl. local taxes and an extension of the contract until 31 December 2024 is necessary to complete this assignment. If the contract will be awarded, the total value will remain below European procurement threshold amount (€ 122,900 excl. Dutch VAT incl. local taxes and other costs). RVO intends to award the contract for the remaining activities via a negotiated procedure without prior publication because there will be no competition for this contract due to technical reasons (art 2.32 paragraph 1 part b under 2 of the Dutch Procurement Act). The contracting authority considers the following: • The original contract was lawfully put out to tender; • The current supplier has developed a specific communication style and has already posted in this style on social media and made press releases. • The current supplier now has more than 1 year of experience in this project. In addition their built up sector knowledge and experience in Columbia, this would not make possible to level the playing field sufficiently. As a result, another supplier will have a minimal chance of winning the contract; • Finally, it is not efficient to award the contract to a new supplier because it would take a long time for him to familiarize himself with and set up the necessary network with counterpart organisations (e.g. Embassy, Alcaldía, MT, other partners) for this contract.
