Energie Beheer Nederland (EBN) is energising the transition. We are contributing to a reliable and affordable energy supply today and to a sustainable energy system for the future. We invest our knowledge, skills and financial resources to help build a sustainable energy system faster, together with our partners. We are working towards a reliable energy system in which we share the costs and benefits of the transition fairly: an energy system that works for everyone. Please see ebn.nl for more information. The purpose of this invitation to tender is: To provide potential Companies with information about the contract and the tendering procedure; To make clear the manner in which the potential Company can submit its Offer, what the tender requirements are, and when which details must be submitted; To provide insight into the manner in which the tendering process takes place, the manner in which the submissions are evaluated and how the rest of the procedure works. Services include: Actively monitoring of positions; Check nominations/confirmations; Balancing within EBN mandates, including trading; Contact counterparts/TSO (GTS) to resolve mismatches; Accurate logging of events; Hand-over; Booking transport capacity.
