1.1 Buyer

Official name: [Ministerie van Economische Zaken en Klimaat, Rijksdienst voor Ondernemend Nederland (RVO)] ---

Legal type of the buyer: Central government authority

Activity of the contracting authority: Economic affairs

2. Procedure

2.1 Procedure

Title: Supply of Metocean data at four Investigation Areas

Description: The Netherlands Enterprise Agency (RVO) is responsible for the site characterization of Dutch offshore wind energy projects. These works consist of the execution of four metocean campaigns at offshore wind energy areas, which will be further specified. The data for each site is obtained by means of two individual floating LiDAR systems and one spare to measure wind, waves, currents and ecological properties. The systems must be minimum in commercial stage 2 and preferably in commercial stage 3 of the OWA Roadmap for commercial acceptance of floating LiDAR technologies (or equal). The tender consists of four (4) lots; one lot for every metocean campaign. Companies can submit an offer for one or multiple lot(s). The preferred deployment date for Lot 1 and Lot 2 is Q3 2024, and the preferred deployment date for Lot 3 and Lot 4 is Q1 2025. The data for each site are obtained by means of two individual floating LiDAR systems and one spare to measure wind, wave and current properties. The data for each site is obtained by means of two individual floating LiDAR systems and one spare to measure wind, waves, currents and ecological properties. The Tendering Authority has estimated the contract value of each lot at EUR 3,500,000, with a minimum value of EUR 2,800,000 and a maximum value of EUR 5,500,000 (exclusive of VAT).

Procedure identifier: cc86cb9e-e336-4832-8f6c-bf8b41728247

Internal identifier: 202306104

Type of procedure: Open

The procedure is accelerated: No

Main features of the procedure: The objective of this tender is to conclude an agreement with tenderers who are able to carry out the metocean measurements required to obtain validated metocean measurement data at the Dutch Offshore Wind Farm Zones IA. These metocean data will be made available to all potential bidders for offshore wind farms in the Netherlands. The tender is divided into four (4) lots
