1. Buyer

1.1 Buyer

Official name:	TU Delft
Legal type of the buyer:	Body governed by public law
Activity of the contracting authority:	Education

2. Procedure

2.1 Procedure

Title:	Preliminary Market Consultation for a research project and contract administration system
Description:	Currently (January 2024), there is no centralized registration of project proposals and contracts. Methods and systems vary across faculties and departments. As a result, support staff spends a disproportionate amount of time on administrative tasks, which they would rather spend on supporting researchers. There is a strong need for a system that supports the current process regarding research proposal applications and automates it where possible. TU Delft intends to procure a software solution to administrate and manage (pre-award) research projects. The users of the tool should be able to build a complete project dossier over time, by collectively adding files, registering data and importing relevant information from other TU Delft systems. In addition, research administrators should be able to track research proposals as they move through various stages. These project files and meta data serve as input for TU Delft's financial system, in which the projects' post-award financials are managed.

2.1.1 Purpose

Main nature of the contract:	Services
Main classification (cpv):	72000000 IT services: consulting, software development, Internet and support

2.1.2 Place of performance

Country:	Netherlands

Anywhere in the given country

Additional information:	Zie documentatie

2.1.3 Value

Estimated value excluding VAT:	999 Euro

2.1.4 General information

Legal basis:

Directive 2014/24/EU

3. Part

3.1 Part: PAR-0000
