

Appendix 9. Award criterion 1. Delivery time

ProRail is seeking delivery of the interrogators as soon as possible. Maximum added value is achieved when the delivery is as soon as possible. The delivery time includes both the preparation and the actual delivery of the interrogator at our location in Amersfoort, the Netherlands, after the signing of the agreement.

Tenderer must indicate the delivery time in the diagram below, taking into account the above points of departure (preparation and delivery).

Note that only **one answer** can be chosen from the options below. **When multiple answers are given, you will not receive a fictitious discount.**

[illegible]
