Aanbesteding:	Replacement VTS radar system Groningen Seaports (NL)
Aanbestedende Dienst:	Groningen Seaports n.v.
Referentie:	P000176

Toelichting:
The following appendices accompany this Summary of Additional Information and Changes:
- Selection guidance version 2.0
- Annex C - Third-party model statement version 2.0

Ref.nr.	**Onderwerp:**
1	radar VTS specification

Vraag:
Hello
I would like to get the VTS radar specification.
Regards

Antwoord:
Technical specifications will be included in the tender guideline if necessary and relevant. This will be published after the selection procedure.

Ref.nr.	**Onderwerp:**
2	Chapter 5 „Selection criteria“ - References

Vraag:
In chapter 4.2.3 "References", at least 3 reference systems within the last 10 years are required as reference 1.
At least 3 comparable maintenance contracts in Europe are required as reference 2.

According to the evaluation scale in chapter 5 "Selection criteria", a maximum of 5 points can be achieved if 100% comparable with Groningen Seaports.

Is it correct to assume that for each reference system submitted, the appropriate number of points (0-5) will be awarded, and therefore submitting more than the minimum number of required systems can also result in a higher number of total points?

Antwoord:
A maximum of 5 points will be awarded for all references together.

Ref.nr. 3

Onderwerp:
Chapter 5 „Selection criteria“ - Number of references

Vraag:
Is there a maximum number of references being evaluated?

Antwoord:
3 references will be evaluated.

Ref.nr. 4

Onderwerp:
Annex C - Third-party model statement.pdf, page 1

Vraag:
Item 1 mentions “Cables and Pipes Heveskes construction team”. What is meant by this?

Antwoord:
This should be "replacement VTS-radar system Groningen Seaports (NL)". This document will be replaced when we publish the Summary of Additional Information and Changes.

Ref.nr. 5

Onderwerp:
Annex C - Third-party model statement.pdf, page 1

Vraag:
Annex 3 should be named Annex C in the title of the document?

Antwoord:
That's correct. We also refer to the answer of question number 4.

Ref.nr. 6

Onderwerp:
Selection guidance version 1.0.pdf, Section 5, page 15

Vraag:
Could GSP please specify when a score of 5, 4, 3 ,2, 1 and 0 is given? (i.e. what are the criteria to reach these points?)

Antwoord:
A reference that is comparable with Groningen Seaports will receive more points than a reference that is less comparable. The assessment will not only include the size and scope of the system, but also the service contract and comparable situation.

Ref.nr. 7

Onderwerp:
Selection guidance version 1.0.pdf, Section 4.2.3, page 14

Vraag:
GSP VTS system consists of 7 radars, 2 separate areas that are monitored and 2 traffic centers (i.e. main and back-up). Does this mean GSP requires hot standby or automatic take over in case of a failure?

Antwoord:
The requirements regarding redundancy will be specified in the tender phase.

Ref.nr. 8

Onderwerp:
Selection guidance version 1.0.pdf, Section 4.2.2, page 14

Vraag:
“the contractor must be able to have a mechanic on site within 24 hours”. Does GSP mean to have a qualified engineer on-site that can perform fault finding procedures, repairs, system analysis, and preventive actions regarding the onsite VTS system (i.e. hardware & software)?

Antwoord:
This text will be deleted. The requirements regarding the maintenance contract will be specified in the tender phase.
