1 4.11 General Terms and Conditions

### **Vraag:**

Are you willing to reconsider the rejection of the terms and conditions of contractors and third parties? Provider arranged copyrights, database rights, and licensing rights with publishers and partners and laid them down in the provider's terms & conditions. Invest International can use the data and service if the license contract and associated conditions of providers can be entered as part of the offer and prevail before ARBIT 2022, taking into account any changes agreed by provider and Invest International.

### **Antwoord:**

You can use the question round to make comments and submit text proposals related to the contract to be signed and the ARBIT. Please suggest what changes we need to make in order to accommodate your copyrights, database rights and licensing rights. Note that during the question round you can also request the current questionnaires and assessment forms.
