Direct award:

Justification
for direct
award:

Activities directly exposed to competition and contracts subject to special arrangements

Other
justification:

The current agreement will expire on 31 December 2024. Vattenfall intends to award a new contract, for 4 years, without a call for competition for the scope of the conversion of central hot tap water supply to individual hot tap water supply in the region Almere-Lelystad to Feenstra Verwarming B.V. for a contract duration of 4 years with 2 times 2 years renewal option due to the following reasons: - A European market consultation has been published on Tenderned with publication reference number 434733 and PB/S number 633201-2023 and on TED with publication number OJ S 202/2023 19/10/2023 and several installation companies have been contacted. The conclusion of this market consultation is that there are no other suppliers available in the market with capacity to execute the volume of the scope of the contract besides the current contractor. - It is important for Vattenfall that the implementation of the CTW-ITW conversion program in the Almere region is continued with the same contracting party to ensure quality and customer satisfaction and to limit the financial and operational risks for Vattenfall.
